WELCOME TO IQ TEST

The "ADHD" test consists of 2 (Two) Parts in total, do not start this part without doing all the instructions.

**To perform the test accurately,
please follow the instructions below carefully:**

STEP 1

Give the child a set of colored pencils including seven colors: blue, green, red, yellow, purple, brown, and black.

Give the child a regular black pencil.

Give the child an eraser and a pencil-sharpener.

Place an A4 size paper in front of the child vertically

STEP 2

Now ask the child:

“Draw a person on this paper as well as you can, and then paint it if you want.”

NOT:

The test order must be performed exactly as it was mentioned and if any changes are applied in the test process or the child is told additional sentences, the result will change significantly and will be invalidated. The child should be allowed to draw as he wishes, without any assistance, criticism, or indoctrination. You can only encourage the child by saying **“Good, keep going”** when he/she has doubts while drawing. If the child asks about the method, tell him/her: **“you can draw in any way that you want, it will certainly be nice.”**

The child should feel free to choose the location of the person on the paper, its dimensions, the direction of the paper which might be different from the direction you handed him/her, the material of the person, the use of the ruler, adding elements other than the specified subject, colors to paint or even to refuse to paint with colors. Since all these choices made by the child could be meaningful in the analysis of the test, any interference in the process of drawing will change the report and might lead to an improper analysis. As a result, follow the test exactly as instructed and do not interfere in the child's drawing process in any way.

STEP 3

Now take a photo of the child's drawing and [upload](#) it here.

STEP 4

You can pass the SNAP TEST (Parental Test).

The SNAP Test will be conducted by parents.

If you're ready, start [SNAP testing here](#).

STEP 5

Congratulation

Your test result will be analyzed by expert psychologists and will be delivered within **3 business days**.
